The Claims Register in Release 5.0 includes a number of enhancements that should be beneficial to both court staff and outside users. One of the more prominent new features is the ability to combine and view multiple documents from the Claims Register in one PDF file.

Prior to Release 5.0, users could only view multiple documents in the Docket Report. We'll now run a Claims Register report and view multiple documents in CM/ECF.

In addition to viewing multiple documents, a claims register summary report is now available to PACER users. This option condenses all claims on the case to a simplified list.

The familiar selection fields are available to produce a partial summary by creditor, claim number, or date range. So a claims summary of the entire claims register can be produced or you may generate a partial summary based on your needs.
