

ABI now provides a valuable new feature on the ABIWorld Web site: the first interactive, national locator for consumers needing pro bono bankruptcy services. The "Bankruptcy Pro Bono Resource Locator," developed by the Institute for Financial Literacy (with funding from the ABI Endowment) with significant contributions from the American Bar Association's National Pro Bono Project, lists more than 600 providers nationally. By clicking on a state within the interactive national map, users will be led to the name, location and essential details for all bankruptcy pro bono providers near them, including any critical limitations on the services provided.

Below are direct links to a few key resources.
