ECF Tip of the Month

Means Test Forms

Previously, when filers used the Search menu in CM/ECF using the search words “Means Test”, the **Search Results** did not include all the events pertaining to the Means Test. This is because all the Means Test events did not include the search words. The ECF events relating to the Means Test were revised to include the wording Means Test so that when the search words **Means Test** are used, the search results will include all Means Test events. This will allow the filer to pick the correct event based on the document to be filed. Every Means Test form has its own event. To ensure the selection of the correct event when docketing, the table below identifies the Means Test forms and the corresponding events.
