III. General Professional Experience

I have practiced bankruptcy law since my graduation from Georgetown Law in 1981, first in New Jersey and, since 1983, in New York. My experience includes representation of parties before bankruptcy courts in more than twenty judicial districts throughout the United States. My clients have included debtors, trustees, indenture trustees, individual unsecured creditors, financial institutions, governmental agencies, official committees of creditors and equity security holders, partners, and individuals, including a former State Governor and a former United States Senator. As part of these representations I have handled multiple lawsuits, including preferential transfer and fraudulent conveyance litigations, and addressed many claims objections.

IV. Experience and Familiarity with Bankruptcy Law

Since 1981 my practice has had a focus on bankruptcy litigation. In addition I have handled copyright, privacy, real estate, construction, insurance, and other disputes, often, but not exclusively, within a bankruptcy context. Among the diverse and varied matters I have handled are contested confirmations, including one which concerned

"dueling plans", challenges to "bankruptcy remote" corporate structures, litigation of notice adequacy and automatic stay application and extension, the determination of a proper post-petition interest rate to be paid by a solvent debtor, and cases respecting the scope of the bankruptcy court's jurisdiction.

V. Mediation Training

I have completed the American Bankruptcy Institute/St. John's University Law School 40 Hour Bankruptcy Mediation Training Program. This course was led by St. John's University Law School professor Elayne Greenberg, Assistant Dean for Dispute Resolution Programs, Professor of Legal Practice and the Director of the Hugh L. Carey Center for Dispute Resolution. The American Bankruptcy Institute sponsored the program which was given between 12/7/14 and 12/11/14, and was for 40 hours. A certificate of course completion was given (copy available upon request).
